## Leading "Hoe Down" Dancers.

After a dinner given by President Taft in honor of Speaker Cannon the guests repaired to the east room of the White House. The waltz was led by President Taft and Mrs. Joseph H. Gaines, Speaker Cannon dancing with Mrs. Laughlin, sister of Mrs. Taft. In the intermission the orchestra struck up a lively tune and Uncle Joe stepped briskly to the middle of the floor where to the patting of hand he danced a "hoe down" and the "buzzard walk." Uncle Joe challenged Taft and the President stepped to the centre and also executed several steps of an old fashioned hoe down.

The above from a dispatch from Washington is disgusting to all thinking Christian people in the country. Roosevelt took off the coin "In God we trust" and it might be put on as a substitute, "Christian people put to shame."

## Back to the Farm.

Gov. Hadley, of Missouri, is an enthusiastic believer in the "back-to-the-farm" movement. He believes in it so strongly that he is to become a farmer in practice as well as a farmer in theory.

The Governor has purchased a tract of land near Jefferson City and is preparing to build a log house on it. He proposes to cut the logs himself. When the logs are all ready he will invite the neighbors in for an old-fashioned house-raising.

The Governor expects to occupy the farmhouse this summer. Having advised every family to keep a cow, he will do the same. He will also raise chickens, and hopes to show the Missourians that he knows something about scientific farming.

Mr. and Mrs. Charlie Mize have moved to Osborne, Kansas to make that place their future home.

## Bills Pass Senate.

Monday's session of the Senate passed the following important bills which had already passed the House and will become laws unless vetoed in some instances where it is possible by Gov. Willson.

House bill 297, to prevent placing the names of candidates put on ballot by petition under any party device was passed by a vote of 29 to 0.

H. B. No. 210, known as the merchants' bill, specifying the amount of property of a person with a family was exempt from garnishment was passed by a vote of 18 to 11.

H. B. No. 332, to amend Section 356, Kentucky Statutes, relating to fees of jailors for feeding State prisoners, was passed by a vote of 26 to 1. The bill provides that jailers shall receive 75 cents instead of 50 cents a day for feeding prisoners.

H. B. No. 209—Act making it unlawful to take rabbits in snares was passed by a vote of 31 to 0.

H. B. No. 90, to provide for payment of a juror when summoned, although he is not accepted, was passed by a vote of 31 to 1.

A million-dollar negro industrial school was to be established at Simpsonville, Shelby county, but the recent session of the Legislature passed a bill prohibiting the establishment of such school in Kentucky. Governor Willson vetoed the bill but it passed over his head.

"The Cellarette" is the name of a four-column folio published by the students of the Beattyville Collegiate Institute. The little sheet is interesting, full of original matter by the students and many funny jokes. We enjoy its reading very much.

## A SERIOUS THOUGHT.

Mr. J. M. McDaniel, the attorney of Beattyville, is in the city for a few days. Mr. McDaniel is deeply interested in the welfare of the mountains and said to the Herald last night:

"I am delighted with the Monday morning Farm Edition of the Herald. It is doing a great work. Eastern Kentucky presents a very serious economic problem. The timber is nearly all gone; the bare bleak hills shorn of their tree culture and cropped in corn a year or two become deep gullies and their fertility is washed into the Kentucky and Ohio rivers and finally settle in the rich alluvial bottoms of the Mississippi Valley. What shall we do with these hills? France and Switzerland and many less favored countries turn them into gardens, vineyards and orchards.

"In Kentucky they are turned deserts. It is a sad sight to behold tens of thousands of acres of land in Eastern Kentucky annually turned into waste land. Shall Kentucky have a desert in her borders? Each section is partially dependent on the others. Almost, if not over, one-fourth of Kentucky is threatened with almost total destruction of the soil. Everything good springs from the farm. Hundreds of thousands of country people in Eastern Kentucky are buying meal, fruits and all those other family necessities which any pastoral country should produce. Kentucky should wake up to the fact that it is bad business to have to have such a vast area of country in a sterile condition. Poverty must follow and the State loses taxes, supports pauper counties and loses its millions in the fruitless toil of its citizens on barren ground.

"What shall be done? Where shall we commence? We have an Agriculture College and an Agricultural Experiment Station and Department of Agriculture at Frankfort which are annually expending vast sums of money. They should be required to look into these alarming conditions, to make experiments in all sections and see what fruits and crops are best adapted to the soil, what fertilizers will hold and reclaim it. This can easily be done in every county. Some progressive farmer slightly aided will carry out experiments on his farm. Captain M. J. Treadway of Delventa, Lee county, could be a blessing to the whole section. He is an Eden in the midst of unproductiveness. The farmers institutes are doing nothing. In Lee county from five to ten farmers attended. No good, as far as I know, has ever come from them. At the farmers' institute every farmer held up his hand saying thereby that he never heard of the Kentucky Experiment Station. This suggests that these institutions should and must get into closer touch with the people and actually help them. That's why they are maintained. They are not doing half their duty. A few words to the wise: Unless something is done for the agricultural inter-

ests of Eastern Kentucky it will not be long before the State will have a desert to support. Why are there so many pauper counties in the mountains—a dead expense to the State. It is because agriculture there is a dead art, or rather one that has never taken on life. One agricultural college, our experiment station, our Department of Agriculture at Frankfort, I bid you to wake, and if you don't wake an aroused public will shake you and you'll never get to go to sleep on good fat salaries any more. I am going to Frankfort to have a resolution put through both Houses to the effect that the farming conditions of the mountains should be seriously considered by the proper authorities and at the end of two years if something effective is not started there will be radical measures added to the statutes. I suggest that diversified farming, poultry raising, or fruit growing be speedily encouraged in the mountains. A rich Commonwealth must be rich in all its sections."—Blue Grass Farmer.

Retail merchants, especially grocers heartily approve of a bill which recently passed the lower House of the Legislature. It provides that if a man earns as much as fifty dollars per month, one-tenth of that amount may be garnished for debt, and all over fifty dollars per month shall also be subject to garnishee.

It will be to your interest to see our line of spring and summer suits and odd pants for men and boys before making your purchases. This season's styles are unusually pretty and we can show you all the new colors and cuts and at prices that will interest you. Hardwick & Co., Stanton.

## Fate of an Accident.

You can't always tell, says an exchange, what will happen. For instance, there is a story of a man who determined to commit suicide. He went to the store and bought a rope, a can of coal oil, a box of matches, a dose of arsenic and a revolver. He went down to the river and pushed the boat from the shore and waded to where a limb hung over; saturated his clothes with the coal oil, lighted a match and set fire to his clothing, took the dose of arsenic, put the muzzle of the revolver to his temple, pushed the boat from under him and pulled the trigger. But the bullet glanced and cut the rope above him and he fell kerflop into the river, the water put the fire out and he got strangled and coughed up the arsenic. He rose and waded out, and declared himself a candidate for the legislature on the Reform ticket.

## Postmaster Resigns.

Miss Bertha Mapel has resigned as postmaster at this city to take effect April 1st. With due respect to all predecessors, Clay City never had a better postmaster, and will, we believe, never have another better one. All patrons of the office received at her hands the same courteous respect. It is regretted that she saw fit to resign as her place in the postoffice will be hard to fill.

There will of course, be a dearth (?) of applicants for the place and there are a number of our Republican friends who can fill the place with efficiency.

April Fool will be along again soon.

## Spring.

It will soon be spring time, that glorious season of all the year when, if you will put your ear against the bark, you can almost hear the sap rising in the trees (sap-heads are invited to try it), when the butterflies flit around, hunting for their supply of oleo-margarine; when bullfrogs announce the depth of the water in sonorous tone and nimrods are given a chance to perfect their scholarship in the Ananias Club; when the man of the house is given choice between beating his brains out against the chicken house or spend a season at beating the parlor carpet, while the housewife looks like a Hindoo with a white turban on her head; when we may take observation as to which end of a horse or cow gets up first after a rest in the green pasture; when almost everything looks green, not omitting some people you know; when the bumblebees bum through the air and the straddle-bug straddles around; when the hoe and the rake point their handles at you as if inviting you to take hold and get busy; when the dickey bird sings to his mate and lovers often fall out and almost fight after a jealous argument under the old apple tree; when six young onions about the size of a lead pencil sell for a nickel; when the editor's poetry box has to be well guarded to keep it from overflowing with odes on the season; when the ice man begins to fire up his boiler and get up steam in his factory; when the buds begin to bud out, including some buds of the human species; oh, yes, it will soon be spring time, but the weather of the past two months almost makes us forget the many things which accompany it.—Ex.

The passage of any of the President's proposed measures in the form he has them drawn and offered, or carrying anything approximating his original theories, seems now a hopeless task. There is active and potent opposition to the most cherished provisions of all the bills on the Administration programme from Democrats and many Republicans, and the trusted friends who have promised the President to aid him in redeeming his campaign pledges are reported to be giving only half-hearted support to the measures embodying them.

Much is being said about pardoning Henry E. Youtsey. He says he is guilty and names the other guilty culprits which Wilson turned loose. We say he should stay where he is and it is a pity his confederates are not there with him.

While Mr. Rockfeller is talking

about giving us back that half of the United States which he has made out of oil, it will be well to watch him, for maybe he is just trying to throw us off our guard, while he gobbles up the other half.

Fifty counties in Kansas, a State-wide prohibition Commonwealth did not furnish a single criminal to the penitentiary in 1909. Prohibition "does something if it doesn't prohibit."

People are beginning to wonder what the government will do with its money after Mr. Aldrich has taught it how to live on \$300,000,000 less a year.

That Mr. Rockfeller is a remarkable man—he actually needed an act of Congress to enable him to get rid of his money

The Trouble Man has got his hands full in Philadelphia. Perhaps it is a case of too much Prosperity for the trusts.

Uncle Joe Cannon as a dancer is in an unusual role. Ordinarily your uncle fiddles and lets the other fellow dance.

There is this difference: Pinchot was fired; Ballinger seems about to be smoked out.

## Back to Simple Life.

Former Senator J. C. S. Blackburn is now enjoying the quiet and peace of life on his farm near here, and there, he expects to spend his last days. It is claimed that the Senator will have some good horses, some good cattle and some good mint beds, but will not exert himself to become a farmer in the strict meaning of the term. He will ride and drive as a country gentleman should. Those who have visited the Senator say he is in robust health and tickled to be back in old Kentucky again. His farm is one of the best in the blue-grass region and joins that of his brother, Cap. James Blackburn.—Midway Clipper.

## A New Game.

There is a new game out called "Ticket the editor." Take an ordinary sheet of writing paper on which you pen a few lines suitable for the occasion. Next you fold it carefully, enclosing a bank note sufficiently large to pay all arrearages and a year's subscription in advance, and hand it to the editor. Keep an eye on him and if a smile adorns his face the trick works fine. The trick can be worked on us.

Gov. Willson Tuesday vetoed the Klair bill providing for legal registration of agreements for pooling farm products, basing his objection on the section act providing a heavy penalty for "any person buying or soliciting pooled or pledged property, lists of which have been recorded." The bill was passed over the Governor's veto by big majorities in both houses.

You are cordially invited to attend our Millinery Opening May 18th and 19th. Mrs. Lillie Barnes has charge of this department now. ## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## Want Longer Tongues.

The tongues of the ordinary honey bees are not long enough to reach into red clover, and the United States Government is spending thousands of dollars trying to lengthen the tongues of bees. The main work of the honey bees, other than storing up honey, is to fertilize flowers by crossing the pollen. If it were not for the bees, both honey and bumble, there would not be an abundance of fruit.

## LOCAL BREVITIES.

O. H. Pollard, of Jackson, has announced for Attorney General.

Miss Bertha Mapel visited relatives in Irvine several days last week.

Elder A. Easter was called to Lexington Monday on a business mission.

Mrs. B. F. Day, of Mt. Sterling, is the guest of her brother, W. R. Cassidy.

Elder Cargill, of Lexington, will preach at the Christian church Friday night.

Mrs. Eva Burgher is spending a few days with her father, Reuben Tipton at Winchester.

Circuit Court convenes at Stanton Monday with the usual number of cases on the docket.

Miss Carrie Barnett, of Winchester, visited relatives here the latter part of the week.

Mrs. James Bloom has been confined to her bed several days with a complication of troubles.

Solomon D. Ewell, of this county, was married Wednesday, March 9th, to Miss Bettie Crow, of Clark county.

Now is a good time to buy your gingham and white goods and get your sewing done before the hot weather. Mrs. J. W. Williams.

The Montgomery county fair will give another exhibition this year. The fair will begin July 19th and hold over five days.

Some say peaches are all killed, but we can hardly see how they managed to get any life in such a winter as we have had this time.

J. D. Williams, general manager the Standard Spoke Company, was over the O. & K. the first of the week buying rough spokes for his plant here.

Judge T. J. Fletcher has been down several days with the grip. Mr. C. Shimfessel has also been laid up a few days with a severe attack of the same trouble.

The experienced editor of the Maysville Bulletin remarks: "The highest joys of gardening are enjoyed about now, as we revel in the tropical luxuriance of the seed catalogs, forgetting the sterile harvest of September."

**Stubborn as Mules**

It gives instant relief. 25¢ at Swann-Day Lumber Co.'s store.

While digging into a hole to capture a rabbit Grant Bennett and Gordon Farrow, of Grayson, unearthed an old tin cannister containing \$482 in gold and silver coin. A cabin near the place where the money was found was occupied a quarter of a century ago by John Stevenson, an old hermit, who died suddenly.

**How Good News Spreads.**  
"I am 70 years old and travel most of the time," writes B. F. Tolson, of Elizabethtown, Ky. "Everywhere I go I recommend Electric Bitters, because I owe my excellent health and vitality to them. They effect a cure every time." They never fail to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. They work wonders for weak, run-down men and women, restoring strength, vigor and health that's a daily job. Try them. Only 50¢. Satisfaction is positively guaranteed at Swann-Day Lumber Company's store.

An exchange says: "Cut the tobacco crop, pool it, and thus avoid over production. Give some attention to hogs and other products. Try some chickens and add a few good milk cows to your herd. Don't put all of your eggs in one basket. 'Mix it,' when it comes to deciding what you could raise for profit this year. Don't go stark crazy on tobacco because you have good judgment to get together and control the selling price. Make it easy to retain control by regulating the supply to suit the demand and while you are regulating it bolster up your income by turning your attention to some other product of the farm that turn into money more easily and readily than tobacco. Don't get the farming proposition all lop-sided by over doing any one product."

## Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

## Smothering Spells

"I suffered for nine or ten years. Had spells of smothering, finally went into convulsions. Dr. Miles' Nervine brought complete relief, and I believe saved my life."

MRS. ROSA BONNER,  
185 N. 18th St., Birmingham, Ala.  
The blood is the channel through which is transported the nourishment that sustains life. When the circulation is poor, your vitality is low, your nervous system exhausted and you are weak and debilitated. You can restore nervous energy by taking

Dr. Miles' Nervine. Its strengthening influence upon the nervous system gives it power to send life-giving blood through the veins.

The first bottle will benefit; if not, the druggist will return your money.

### Must Make no Mistakes.

It is said to be an inexcusable outrage for a newspaper editor to make the slightest mistake in a statement of any sort, with professional persons, upon whose certainty of knowledge and on whose statement in regard thereto, life and death or the most important interests depend, make the most serious errors without incurring the slightest criticism, much less blame, says the New Orleans Picayune.

Take the judge on the bench, whose decisions are set aside and annulled by higher courts almost every day, and the judge whose judgment is so reversed does not suffer in the least in public and

professional estimation. In the same way the physician who makes a wrong diagnosis of his patient's disease, administers treatment that results in death instead of a cure, loses none of the confidence of his patrons in his skill, and he may kill any number of persons secundum artem without incurring the slightest responsibility.

These are obvious facts, but they are mentioned, not by way of excusing editorial mistakes, for there is no excuse for them. It is because every individual firmly believes that he could conduct newspapers better than those who are charged with the work, while no unprofessional person would undertake to usurp functions of the judge or the physician.

## Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

## TAKE CARDUI
